VI. Institutional set-up for liquidity risk management

The Board of Directors have an overall responsibility of establishing and overseeing the risk management framework of the Company. The Risk Management Committee (RMC) of Directors is a sub-committee of Board, which is responsible for developing and monitoring various risk management practices, policies, and prudential risk limits of the Company. The Company's risk management policies outline in detail the risk management practices being followed by the Company including identification, assessment, measuring, monitoring, mitigation and reporting of various risk faced by the company. The risk management policies and systems are reviewed regularly to reflect the changes in market environment and the business activities of the Company.

The Asset Liability Committee of Executives (ALCO) has been constituted as per the board approved risk management policies, which functions as a decision-making body for the asset-liability management of the Company and is responsible for implementation of sound risk practices and guidelines as per board approved risk management framework. The Committee also ensures adherence to the prudential risk limits and parameters as defined by the Board and RMC from time to time.

ALCO provides guidance and directions in terms of interest rate, interest spread, liquidity, funding sources and funding mix etc. The ALCO meetings are held once in a month or more frequently as warranted from time to time.

Notes:

- *'Public Funds' - Public funds include public deposits, inter-corporate deposits, bank finance and all funds received whether directly or indirectly from outside sources such as funds raised by issue of Commercial Papers, debentures etc.*
- *Total Liabilities refer to Total outside liabilities i.e. Balance sheet total excluding Share Capital and Reserves.*
- *Other Short-term liabilities include financial Liabilities and non-financial liabilities payable within a year.*
